## **Piedmont Fiberglass to relocate 50 and create 25 new jobs in Alexander County**

One of the nation's premier manufacturers of fiberglass products will relocate its manufacturing facility to Alexander County.

Piedmont Fiberglass Incorporated will locate in a 170,000 square foot former Kincaid Furniture Building located at the intersection of NC Highway 90 and Lewittes Road just East of Taylorsville.

The facility has been empty for the past year, and to facilitate Piedmont's move, the local Economic Development Corporation applied for and received a \$250,000 Building Reuse Grant from the NC Rural Development Center. State Rep. Ray Warren and State Sen. Steve Goss both assisted Alexander County in securing the grant.

The company will relocate a majority of it's existing staff of 50 and will create at least 25 new jobs in Alexander County over the next two years. Piedmont Fiberglass offers above average pay, in addition to benefits such as vacation pay, holiday pay, health insurance, retirement plan and the PFI Employees Care Program.

Piedmont Fiberglass makes products such as church steeples and baptismal pools as well as a variety of parts for the boating industry. The company is currently owned by Douglas and Angela Caudle and the company was founded in 1972 by Phares Caudle.
